

# Stanhope PFI

## A regeneration masterplan for Stanhope, Ashford, UK

PRP was invited to tender as part of a consortium to develop several sites within the estate's masterplan, as well as refurbish all external areas. These included pedestrian spine routes, a new local centre and square, parks and play areas, communal greens, roads and SUDS. As lead landscape architect I prepared a landscape masterplan for the bid and consultation. Following the successful ITN, PRP was commissioned to obtain planning permissions and prepare detailed proposals for each area.
